CAREER OBJECTIVE

Aspiring Full Stack Developer skilled in developing scalable web applications using modern frontend and backend technologies. Passionate about creating efficient and user-friendly systems while contributing technical expertise and continuous learning in a technology-driven environment.

EDUCATION KONGU ENGINEERING COLLEGE B.Tech AIML - 8.41 CGPA 2023-2027 GOVT HIGHER SEC. SCHOOL HSC - 88.8 % 2021-2023	PROJECTS Smart Electrical & Hardware E-Commerce Platform Technology Used : React, CSS, Node.js, Express, PostgreSQL Provides a smart online platform for browsing and purchasing electrical and hardware products with real-time inventory management. It improves efficiency and user experience by offering organized product categories, secure authentication, and seamless ordering. Jan 2026 - Mar 2026 Recommends Personalized Colleges for Counselling Students Technology Used : React, CSS, Python, Node.js, MongoDB Analyzes student rank, category, and preferences using machine learning to recommend suitable colleges. It helps counselling students make informed admission decisions through personalized and data-driven suggestions. Jul 2025 - Nov 2025 AI Driven Financial and Development Support System Technology Used : React, CSS, Javascript, Python, Node.js, MySQL Uses machine learning to analyze user data and generate personalized financial insights and development recommendations. It enhances decision-making by offering intelligent guidance, predictive analysis, and data-driven support for better financial planning and growth. Jun 2025 - Oct 2025 Deepfake Detection Technology Used : HTML, CSS, Python, Deep Learning, OpenCV Detects whether a login face is real or AI-generated using deep learning techniques. It enhances security by preventing unauthorized access through manipulated or synthetic images. Feb 2025 - Mar 2025
AREA OF INTEREST Web Development DBMS AI & ML	
SKILL SET Language - Python Java AI/ML - Numpy Pandas Keras Tensorflow NLP Frontend - HTML CSS React Javascript Backend - Node.js Express.js Database - MongoDB MySQL Tools - GitHub Postman	PROFESSIONAL EXPERIENCE Cyber Security Intern - SkillCraft Technology Gained basic knowledge of cybersecurity concepts and practical exposure to security practices. Dec 2024 - Jan 2025 Remote AI/ML/Generative AI - GenAI Consortium Learned fundamental concepts of AI, machine learning, and generative AI applications. Apr 2025 - Jun 2025 Remote Web Development - Zaalima Development Learned fundamental concepts of web development, including frontend and backend technologies, and DB integration. Feb 2026 - Apr 2026 Remote
ACHIEVEMENTS - Secure Top 50 in SIH Internal Hackathon at KEC, 2025 - Participated in 30 hours Hackathon at Dr.Mahalingam College at Pollachi, 2025 - Participated in 24 Hours Hackathon at KEC (twice) - Participated in 30 Hours Hackathon at KEC - Improved communication and technical skills through continuous self-learning and project development.	CERTIFICATIONS - Microsoft Certified: Azure AI Engineer Associate - Oracle Certified Professional : Java SE 17 Developer - Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Simplar Academy : Full Stack Development Course
